Get-Home Safely Programs

- **Soldier's Perception**: Soldiers felt when they have had too much to drink, they could not approach their unit leadership, due to fear of disciplinary action.
- **Soldier's Recommendation**: Command disciplinary actions for alcohol-related offenses need to be consistent, regardless of offender's rank/position. Effective safety briefings by unit leadership are needed to convince Soldiers that disciplinary action will not occur if unit "Get Home Safely Program" initiatives are utilized by our Soldiers.
- **Leader Directives/Tools**: Leaders, down to the 1st-Line Supervisors, must implement an aggressive "Get Home Safely Program" and must reassure their Soldiers that negative repercussions will NOT occur if program components are utilized. Programs should include, but are not limited to, command policy letter outlining the program, POC Cards with pertinent SDO/Leader information and a 'mechanism' for Soldiers to get home safely in the event of alcohol use/intoxication. Program examples can be found at: <http://www.vcorps.army.mil/Safety/default.htm>
